CRC FAST STICK Fast stick adhesive

Ref. : 10039

1. GENERAL DESCRIPTION

CRC Fast Stick is a fast tacking, nonchlorinated spray adhesive. This specialist formulation will provide instant 'grab', which allows pressure to be exerted on the bond before full cure strength is achieved.

2. FEATURES

- CRC Fast stick - provides instant grab
- Provides permanent bonds
- Free from chlorinated solvents
- Tack time approximately 30 seconds
- Economical in use - only a light film is required for instant grab

3. APPLICATIONS

- CRC Fast Stick has been formulated to satisfy the demands of the carpeting and flooring trade. It is also suitable for bonding many different substrates, including:

Carpet	Foam	Cork	Paper
Underlay	Fabric	Upholstery	Cardboard
Wood			

to a wide variety of different surfaces.

- Used for fixation and assembly of GRP (glasfiber reinforced polyester) parts, like typically used in the windmill industry.

4. DIRECTIONS

- Apply an even coating from 25 – 30 cm distance:
 - to both surfaces to be bonded for a permanent bond.
 - to one surface for a re-positionable bond.
 - Wait until the adhesive is tack-dry.
 - Bond the surfaces together using firm pressure.
 - To prevent blockages, invert the can after use and spray to clear the nozzle.
- N.B. May affect certain plastics. Always test on a small, inconspicuous area before general use.**
- A safety data sheet (MSDS) according to EU directive 91/155/EEC and amendments is available for all CRC products.

CRC FAST STICK

Fast stick adhesive

Ref. : 10039

5. TYPICAL PRODUCT DATA (without propellant)

Appearance	: Clear, amber liquid
Odour	: Characteristic Solvent
SG @ 25°C	: 0.66
Polymer type	: Styrene Butadiene Rubber
Tack time	: Approximately 30 seconds
Bonding time	: Maximum adhesion in 12/24 hours
Temperature range	: Up to 50°C (dried film)
Solubility	: Soluble in some solvents, insoluble in water
Recommended solvents	: CRC Industrial Degreaser

6. PACKAGING

Aerosol 12 x 500 ml

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend that our products be tested on-the-job prior to use.
