

- Resistance measurement from $1\mu\Omega$ to 6Ω
- ► Measuring current up to 10 Amp
- Manual / Auto range
- Four wire measurement
- ► Memory of 1000 readings
- Light weight 4kg and small size
- Removable and rechargeable battery pack

Dedicated to measure bonding resistance also called metalisation, its main applications are measurement on plane, helicopter, rocket, army vehicles, for both production and maintenance.

"Designed for easy carrying, and easy testing, the RCP2A also carries function, the data logging function which permits test sequences to be downloaded from an Excel spread sheet"

Technical Characteristics

LOW RESISTANCE MEASUREMENT

Resistance

- 4 Measurement ranges : $6m\Omega$, $60m\Omega$, $600m\Omega$
- Auto or manual range selection with 2 currents selectable by range
- Resistance measurement from $1\mu\Omega$ to 6Ω
- Accuracy:
- \pm 0.1% reading + 0.1% full scale

Current and voltage

- Measurement current
- 100mA , 1A , 10A • Accuracy :
- \pm 0.2% reading + 0.1% full scale
- Impulse current shape 100ms
- 5V Open circuit voltage

Signals

- Measurement threshold adjustable
- Visual (red/green leds) and audible signals for results

Data logging

- 999 measurement memories with measurement results, date
- Programmable test sequences mode, downloading operator Identity, serial number... for Excel spread sheet analysis
- Testing program and results loadable Via RS232

Connection

- RS232 interface between PC and RCP2A connection
- 2 circular connectors (3 and 4 pins) on front panel with JAEGER locking system

Display

- 240 x 64 LCD matrix display with backlight
- LCD numerical screen with 6000 digits resolution
- Remote Control Display (option) with 3 meters cable

Battery

- Operating time: 20 hours or 1000 measurements at 10A
- Easy removable NiMh battery pack
- 3 hours charging time with the external charger

Range	Resolution	Current	Uncertainty @ 20°C ± 5°C, 1 year	Temperature Coefficient / °C
6Ω	1mΩ	100mA / 1A	\Box (0.1%Rdg. + 0.1%FS)	40ppm Rdg. +30ppm FS
600mΩ	100μΩ	1A / 10A	\Box (0.1%Rdg. + 0.1%FS)	40ppm Rdg. +30ppm FS
60mΩ	10μΩ	1A / 10A	\Box (0.1%Rdg. + 0.1%FS)	40ppm Rdg. +30ppm FS
6mΩ	1μΩ	1A / 10A	\Box (0.1%Rdg. + 0.1%FS)	40ppm Rdg. +30ppm FS

General Characteristics

RCP2A presentation

- Robust case in polyester resin and glass fiber, dust and water proof
- Colour ivory cream
- Portable device with small weight and carrying strap

Accessories

- Easy to use with a single measurement trigger button
- See accessories for full detailed list

International standard

• Complies with 2025 AIR regulation

Dimensions

Height: 250 mmWidth: 340 mmDepth: 120 mm

Weight

• < 4,5 kg

Power

- NimH battery Pack
- Charger 90-250V input voltage

Operating temperature

- 0°C to +50°C
- Rel. humidity up to 80% none condensing

Storage temperature

• -20° C to $+50^{\circ}$ C

Safety

With Safety Extra Low Voltage circuit

- Conforms to EN 61010-1
- Main instruments class 3
- Battery pack class 3
- External charger class 2

Options

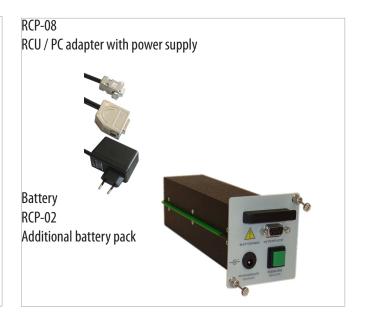

Remote Control Display

RCP-01

Remote Control Unit (RCU) with memory

- Dimension: 200 x 120 x 60mm
- Weight: 600g
- Display: graphic LCD screen 64x240 points, 6000 digits
- Ending: 9 pins Sub-D type connector
- Type: Remote terminal operating in hands or strapped on the front arm to make the measurement easier

RCP-03

Additional battery charger

Computer environment

RCP-09

RCP2PRO software and PC connection cable CO179A

- Sequence testing, user management, easy-to-use interface with its only 4 button production screen, easy data upload/ download
- Type: PC software, working under Windows[™] 2000 and Windows[™] XP PRO

C0179A

To use between RCP2A milliohmmeter and PC for data communication.

- Length: 2, 50 meters
- Starting/Ending: 9 pins male/ female Sub-D type connector
- Type: interconnection cable between PC and RCP2A

Protection and transport

RCP-05

Fiber glass suitcase

- Dimension: 660 x 460 x 180mm
- Weight: 7kg
- Type: to store the unit, its accesories and measurement leads

RCP-15

Protection lid

- Dimension: 340 x 120 x 60mm
- Weight: 1,5kg
- Type: protection for the front panel

RCP-16 Bag for RCP2A RCU

Available accessories

Kelvin Tips

TF9-1

- Length: 3 meters
- Starting: 4 pins male plug
- Ending: retractable tip probe
- Type: 2 wires lead (this has to be ordered with an other 2 wires lead accessory). The length of the metal part of the probe is 180 mm.
- Most common application: especially made to test small points. The retractable tip probe will make a contact with the 2 pins when pushed by the operator hand

C0251

- Length: 2 meters
- Starting: 4 pins male plug
- Ending: retractable tip probe
- Type: 2 wires lead (this has to be ordered with an other 2 wires lead accessory). The length of the metal part of the probe is 150 mm.
- Most common application: especially made to test small points. The retractable tip probe will make a contact with the 2 pins when pushed by the operator hand. Its short probe allows reaching some unaccessible parts.

C0258

- Length: 2 meters
- Starting: 4 pins male plug
- Ending: retractable tip probe
- Type: 2 wires lead (this has to be ordered with an other 2 wires lead accessory). The length of the metal part of the probe is 180 mm.
- Most common application: especially made to test small points. The retractable tip probe will make a contact with the 2 pins when pushed by the operator hand

TE28/1

- Length: 3 meters
- Starting: 4 pins male plug
- Ending: bipolar retractable pin test probe. A remote control button is on the test probe in order to start the test at distance.
- Type: 2 wires lead (this has to be ordered with an other 2 wires lead accessory)
- Most common application: especially made to measure on some surfaces you want to go through, in order to make a good contact (painting ...)

Kelvin Clips

C08

- Length: 12 meters
- Starting: 3 pins male plug
- Ending: small sized kelvin clip
- Type: 2 wires lead (this has to be ordered with an other 2 wires lead accessory)
- Most common application: especially made to crimp on small fragile connections

CO10

- Length: 12 meters
- Starting: 3 pins male plug
- Ending: large crocodile clip with sharp teeth
- Type: 2 wires lead (this has to be ordered with an other 2 wires lead accessory)
- Most common application: especially made to crimp on the main ground of the plane

Available accessories

C0250

- Length: 2.50 meters
- Starting: 4 pins plug + 3 pins plug
- Ending: one Kelvin crocodile clip, 3 banana plugs and tips
- Type: 4 wires lead
- Most common application: especially made to crimp on small connection points

CO255

- Length: 2.50 meters
- Starting: 3 pins male plug
- Ending: Kelvin crocodile clip
- Type: 2 wires lead (this has to be ordered with an other 2 wires lead accessory)
- Most common application: especially made to crimp on small connection points

Extension Cable

CO9

- Length: 20 meters
- Starting: 3 pins male plug
- Ending: 3 pins female plug
- Type: extension cable for 2 wires lead accessory type
- Most common application: especially made to have longer cables and test points that are separated with big distance.

RCP-04

- Length: 12 meters
- Starting: 4 pins male plug
- Ending: 4 pins female plug
- Type: extension cable for remote control unit & measurement leads
- Most common application: especially made to have longer cables and test points that are separated with big distance.

RCP-06

- Length: 15 meters
- Starting: 3 pins male plug
- Ending: 3 pins female plug
- Type: extension cable on reel
- Most common application: especially made to have longer cables and test points that are separated with big distance.

RCP-07

- Length: 90 meters
- Starting: 3 pins male plug
- Ending: 3 pins female plug
- Type: extension cable on reel
- Most common application: especially made to have longer cables and test points that are separated with big distance.

Available accessories

RCP-10

- Length: 20 meters with embase
- Starting/Ending: 3 pins male plug
- Type: extension cable on reel
- Most common application: especially made to have longer cables and test points that are separated with big distance.

RCP-11

- Length: 20 meters with embase
- Starting: 3 pins male plug
- Ending: 3 pins female plug
- Type: extension cable on reel
- Most common application: especially made to have longer cables and test points that are separated with big distance.

RCP-14

- Length: 30 cm
- Starting: 3 pins male plug
- Ending: 4 pins female plug
- Type: adaptator Jaegger 3 pins male to 4 pins female

C0262

- Length: 3 meters
- Starting: 9 pins Sub-D type connector
- Ending: 15 pins Sub-D type connector
- Type: interconnection cable between remote control display (RCP-01) and RCP2A

Calibration

RCP-91

Calibration box

RCP-17

• Shunt 1 mΩ 0.5%

RCP-18

• Shunt 5 m Ω 0.5%

RCP-19

• Shunt 10 mΩ 0.5%

RCP-20

• Shunt 50 mΩ 0.5%
