

Accessories

For mobile and preliminary storage of SF₆ measuring gas

B151R95

Discharge gas collecting bag

This bag is a simple and cost-effective system for collecting measuring gas in case it cannot be returned directly into the circuit breaker. Its handling is very easy: Connect the bag with the hose included in the scope of supply to the measuring device.

The discharge gas collecting bag allows collecting the SF₆ from up to 25 measurements. The gas can be removed from the discharge gas collecting bag with any service cart and by means of the supplied hose and coupling. When using this system no SF₆ is released into the atmosphere. It is light, practical and environmentally friendly.

- 52 l capacity
- Light folding bag for comfortable transportation
- Integrated safety valve ($p_e = 100$ mbar)
- Self-closing miniature couplings
- DILLO coupling DN8 with hose connection (to recover the bag)

Accessories

B151R95

Discharge gas collecting bag

Technical data:

Dimensions folded: L 300 mm, W 600 mm, H 80 mm
Dimensions filled: L 600 mm, W 900 mm, H 300 mm
Weight: 1.2 kg

Standard equipment:

2 operating manuals in German, English or French
--

Optional accessories at an extra charge:

DILO coupling DN20 with hose connection (between service cart and bag)	6-1161-R023
Adapter case for measuring devices	Z340R10
Additional operating manual on CD-ROM	6-0004-R213

Packing:

Packing for B151R95	3-948-R007
---------------------	-------------------

Note:

All DILO measuring devices equipped with a gas return system can be connected to the discharge gas collecting bag (see data sheets of the SF₆ Measuring devices).
